

DISABILITY POLICY

It is the policy of Tandragee Junior High School that all prospective pupils have the right to attend our school provided they meet the normal admission criteria.

Pupils that have a recognised disability, whether physical or emotional, will be permitted to attend and a curriculum will be provided that meets their needs and is not different from any other pupil for reasons based on disability. It is our intention to comply fully with the Equality Act 2010. As such then we ensure the following:

Those pupils that are physically disabled have the right to choose from the lists of option subjects in the same way as any other pupil.

At least one classroom is accessible in each subject area and that pupils, staff and visitors are able to safely proceed to all areas of the school .

We will also provide each physically disabled pupil with a personal emergency evacuation plan in case of emergency if required.
